

Ramarao Iragavarapu

Senior Frontend Developer · React · React Native · TypeScript · Design Systems · MCP / AI Tooling

Pontiac, Michigan · imsramarao6669@gmail.com · linkedin.com/in/ramarao-react · github.com/imsramarao

PROFESSIONAL SUMMARY

Senior Frontend Developer with 7+ years shipping React, React Native, and TypeScript applications across healthcare, financial services, and design system domains. Currently leading frontend on the Dream Design System (86 components, 560+ tokens, 607 icons, dual theme palettes) and the Dream MCP server at United Wholesale Mortgage — an integration that lets Claude scaffold complete pages from a single prompt using only DS primitives. Authored 20+ complex production components: charts, document viewers, media players, advanced pickers. Strong specialty in component API design, MUI customization, animation engineering, mobile + web cross-platform delivery, and AI-augmented developer tooling.

CORE SKILLS

Languages: TypeScript, JavaScript, HTML, CSS

Frameworks & Libraries: React, React 19, React Native, Next.js, Vite, Node.js, Express

UI & Design Systems: MUI (Material UI), Storybook, Figma, Tailwind CSS, Design Tokens, Theming, Accessibility (WCAG)

Mobile: React Native, Expo, Reanimated, Gesture Handler, Detox

State Management: Redux Toolkit, Redux Saga, Redux Thunk, Context API, Apollo Client, TanStack Query

AI & Tooling: Model Context Protocol (MCP), Claude, Tool Calling, Codeium, GitHub Copilot

Testing: Jest, Detox, Mocha, Vitest

Other: Agile / Scrum, JIRA, Mentoring, Code Review, MongoDB, Angular, REST APIs

PROFESSIONAL EXPERIENCE

Senior Frontend Developer · United Wholesale Mortgage

June 2025 — Present

Pontiac, Michigan

- Lead frontend engineer on the **Dream Design System**: 86 React components, 560+ design tokens, 607 icons, two theme palettes — consumed by every product team in the organization.
- Authored **20+ of the more complex components** from scratch or by extending MUI primitives — Gauge, Bar Chart, Pie Chart, PDF Viewer, Slider, Autocomplete, Stepper, Action Icon, Time Picker, Date Range Picker, Audio Player, Video Player — re-tuned to the brand's typography, color, and motion language.
- Co-developed the **Dream MCP server**: an MCP integration that exposes every DS component, token, icon, and usage guideline as Claude tools. Engineers describe a page in one prompt and Claude scaffolds the full implementation using only DS primitives.
- Reviewed, tweaked, and bug-fixed components across the entire catalog; partnered daily with design and engineering teams across multiple product lines.

Tech: React, TypeScript, MCP, MUI, Storybook, Figma, Reanimated.

Senior React / React Native Developer · Zia Global

April 2024 — June 2025

Client: Florida Blue / Blue Cross Blue Shield · Remote

- Continued the public-facing Florida Blue member application engagement under a new employer; shipped production pages across the in-network and out-of-network member experience on both web and React Native mobile.
- Delivered provider list pages, doctor profile pages, single-claim and multi-claim views, and a tab-driven provider experience covering cost details, compare providers, select providers, edit providers, and a live map view of provider locations.
- Closed out React major-version upgrade work and continued security-vulnerability remediation across the codebase while sustaining feature velocity.

Tech: React, React Native, TypeScript, Redux, REST APIs.

Senior React / React Native Developer · Lanco Global Systems

July 2023 — April 2024

Client: Florida Blue / Blue Cross Blue Shield · Remote

- Continued the Florida Blue engagement; built out the public-facing member application across web and React Native.
- Implemented in-network and out-of-network search flows, provider list and detail pages, claims views, and the tabbed cost / compare / select / edit / map experience.
- Operated in a JIRA-driven, sprint-based team with regular production releases and active code review culture.

Tech: React, React Native, TypeScript, Redux.

Senior React / React Native Developer · SmartInt Inc

January 2023 — April 2023

Client: Florida Blue / Blue Cross Blue Shield · Remote · CPT

- Started the Florida Blue engagement during the CPT period of my master's program.
- Redesigned the out-of-network pages flow end-to-end and built the foundations for the in-network provider search across multiple screens.
- Drove React major-version upgrades and resolved a backlog of security vulnerabilities while shipping new features in parallel.

Tech: React, React Native, TypeScript, Redux.

React Native Developer · Atos Syntel

December 2019 — December 2021

Pune, India

- Joined directly after my Bachelor's; completed intensive in-house React and React Native training.
- Shipped two internal projects — **Track-IT** (asset management system) and an **event management application** — and mentored a team of **10 junior developers** through the full Agile lifecycle (sprint planning, standups, backlog refinement, demos, retrospectives).
- Worked on **Baylor Scott & White Hospital's** mobile application — one of the largest hospital systems in Texas:
 - Built the Virtual Waiting Room: tapping a hotspot triggers layered animations that explain what happens behind the scenes during a visit.
 - Built the Prayer Wall: a community feed where members post prayers, with like / comment / edit / swipe-to-delete using smooth gesture-driven motion.

Tech: React Native, Redux, CSS animations, Gesture Handler.

MEAN Stack Developer (Intern → Developer) · Krify Solutions

2018 — March 2019

Kakinada, India

- First professional role. Learned the full MEAN stack — MongoDB, Express, Angular, Node.js — and built an end-to-end internal application from scratch to demonstrate the skills.

Tech: Angular, Node.js, Express, MongoDB.

EDUCATION

Master of Science, Computer and Information Sciences

Southern Arkansas University · Magnolia, Arkansas

December 2021 — 2023

Bachelor of Technology, Computer Science and Engineering

Jawaharlal Nehru Technological University, Kakinada · India

Graduated March 2019

SELECTED PROJECTS

Dream Design System & Dream MCP — *United Wholesale Mortgage · 2025*

86 React components, 560+ design tokens, 607 icons, dual theme palettes. Built MCP server integration that exposes every component, token, icon, and usage guideline as Claude tools — engineers describe a page in one prompt and Claude scaffolds the full implementation using only DS primitives.

Florida Blue Member Application — *2.5-year engagement across three employers · 2023 — 2025*

Public-facing healthcare member app on web and React Native. Shipped in-network and out-of-network search, provider lists and details, claims views, tab-driven cost-comparison flow, and a live provider-location map. All pages in production.

Baylor Scott & White Hospital — *Atos Syntel · 2020 — 2021*

Virtual Waiting Room with hotspot-driven layered animations. Prayer Wall: community feed with full social CRUD and gesture-driven swipe interactions on React Native.

Aurora Glass Portfolio — *Personal · 2026*

Designed and built this portfolio site with Vite + React + TypeScript. Includes a working MCP server simulator that exposes career data as nine tools, with protocol-accurate JSON-RPC traffic visualization.
